

**POE Switch 4 CH - WPE-704P**

**10/100M PoE network switch**

**Product Features**

- ▶ IEEE 802.3af power on up to 4 ports
- ▶ Supply power to wireless access points and surveillance cameras over Cat-5 cabling
- ▶ 5 10/100 Mbps Ports with Auto Uplink™
- ▶ Supports PoE power up to 15.4W for each PoE port
- ▶ Supports PoE power up to 53W for all PoE ports
- ▶ Supports PoE IEEE 802.3af compliant PDs
- ▶ Supports IEEE 802.3x flow control for Full-duplex Mode and backpressure for Half-duplex Mode
- ▶ 1K entry MAC address table of the PoE Switch RB-P10050004 with auto-learning and auto-aging
- ▶ LED indicators for monitoring power, link, activity and speed
- ▶ External power adapter supply
- ▶ 1.6G Broadband and 96K forwarding memory
- ▶ All the ports support Auto MDI/MDIX
- ▶ Comply to IEE802.3 , IEE802.3u , IEE802.3af , IEE802.3at

**Description**

- ▶ The 10/100M poe network switch provides power and data from a single point, using Power over Ethernet (PoE) over a single Cat-5 cable.
- ▶ The five Fast Ethernet ports can be used for any 10/100 Mbps link and four of these ports can supply industry-standard IEEE 802.3af power.
- ▶ Advanced auto-sensing algorithm gives power only to IEEE802.3af end devices, so no need to worry about damaging proprietary PoE or non-PoE equipment.
- ▶ In addition, it discontinues the power when PoE devices are disconnected.
- ▶ Easy and reliable, the PoE Switch RB-P1050004 automatically determines PoE requirements, speed, duplex, and cable type using Auto Uplink™.
- ▶ The affordably priced PoE Switch RB-P1050004 delivers PoE to any small business network that wants to simplify the installation of wireless access points and IP-based surveillance cameras.
- ▶ These devices are optimally installed on a ceiling or high on a wall, away from most electrical outlets.
- ▶ PoE eliminates the requirement for a dedicated electrical outlet to power these devices.
- ▶ This allows for flexibility in situating devices where AC power is difficult to access and lowers installation costs.
- ▶ Compact and flexible, the PoE Switch RB-P1050004 is ideal for small business networks that need to inexpensively use PoE to deploy wireless access points and IP-based network surveillance cameras.

**Dimensions**

**4 Port 10/100M PoE Switch**

A. 4 PoE Ports B. Up-link RJ45 Port C. Power Supply: DC 48V
